

Greetings!

This letter is to express my interest for the Software Developer Engineer(SDE) profile. With Bachelor's+Master's degree (Integrated Course) in Information Technology with 8.47 CGPA and hands-on experience on few skills to create and implement software applications, I am confident I will be an valuable asset to your organization.

I have served as a software engineer intern for Decision Point Analytics Company, where I have been repeatedly recognized for

1. Designing and developing analytics software products involving big data and machine learning.
2. Developing modules of existing retail analytics products of the company.

I am responsible for full lifecycle development of social media analytics software, from initial requirement gathering to design, coding, testing, documentation and implementation. For the company, my work on social media analytics involved streaming data, text analytics, big data, hadoop and network analysis using Neo4j graphDB and brand identification from image data using deep learning. Known for excellent client-facing skills, I have participated in proposals and presentations. Apart from this I have also undergone one Industrial Training on ASP.NET in Smart Controls Ind Ltd and few other projects as mentioned in my resume enclosed.

My technical expertise includes cross-platform proficiency (Windows, Unix, Linux and), fluency in few scripting/programming languages (including C, C++, Python and SQL) and advanced knowledge of developer applications, tools, methodologies and best practices (including OOPS, client/server architecture, Data Structures, Algorithms, Machine Learning, Django-Mongoengine and ASP.NET).

My experience developing user-friendly real time solutions on time would enable me to step into a software engineering role at your Company and hit the ground running. As a proactive and enthusiastic individual, I would welcome an opportunity to discuss my software engineering capabilities with you.

Thank you for your time and consideration. I look forward to meeting with you soon.

Sincerely,

Dimpal Rawat
